

A login form titled "ePass Login" with a green header. It contains two input fields: "Username:" and "Password". Below the password field is a "Login" button.

# ePass Montana

*One Person, One Password*

The state of Montana is using new and innovative technology to better serve our citizens and businesses.

## What is ePass Montana?

---

ePass Montana is a service provided on Montana's official state website, mt.gov, that provides the following benefits to Montana's businesses and citizens:

- Allows access to all authorized eGovernment services with one username and password
- Provides customization options for mt.gov so customers can personalize their services page
- Shows customers other government services that may be useful to them
- Grants them access into federal government services for which they are authorized\*

## How does ePass Montana benefit state government?

---

ePass Montana is an enterprise-wide initiative that is a good example of agencies working together across boundaries for the benefit of our customers by:

- Improving overall security of online services by having one entry point
- Decreasing human factor security breaches
- Developing a single security solution and using it multiple times resulting in cost efficiencies
- Focusing on one solution for oversight and auditing purposes reducing overall effort
- Increasing adoption rates for the state's eGovernment services
- Having more satisfied customers and building public trust in our security

\*The state of Montana is applying to become a level I and level II Credential Service Provider for the federal government.
